Projects

Diet Management Platform(www.thediet4u.com)
Tech Stack: React.js, Firebase, Razorpay, EmailJS, HTML/CSS, Tailwind CSS

- Designed and developed a responsive, user-centric diet consultation website enabling users to register, select a plan, and receive personalized dietary guidance.
- Integrated Razorpay payment gateway with tiered pricing, supporting seamless and secure online transactions.
- Implemented Firebase Realtime Database to store and manage user form data, ensuring fast and scalable data retrieval.
- Built a protected Admin Dashboard to review user submissions in real-time, secured by custom authentication logic using React state and local validation.
- Automated email notifications using EmailJS, delivering confirmation and failure emails to users based on payment outcomes.
- Ensured a modular codebase with reusable components and integrated Tailwind CSS for consistent, modern UI/UX styling across devices.

Cloning Projects

Built responsive UI clones of popular apps like Netflix, Netmeds, and Amazon to strengthen frontend skills and understand real-world design patterns.

Interactive Web Resume Portfolio

Tech Stack: HTML5, CSS3, Bootstrap, JavaScript, jQuery

• Designed and developed a responsive, single-page interactive resume using modern UI principles and custom animations.

• Integrated dynamic navigation and typing effects for enhanced user engagement using jQuery and Typed.js.

• Implemented section-based transitions with clean layout and responsive design using Bootstrap and media queries.

• Showcased personal projects, skills, and education with an interactive and mobile-friendly user experience.

LeoFit Global Gym(www.leofit.vercel.app)

Tech Stack: React.js, Tailwind CSS, Firebase (Hosting & Realtime DB), JavaScript, Framer Motion, React Router

Developed a responsive, single-page gym website to showcase services, trainers, and schedules.

Used Firebase for both hosting and backend to manage dynamic content and ensure fast, scalable performance.

Integrated Framer Motion for smooth animations and Tailwind CSS for a clean, mobile-first UI. Implemented React Router for seamless navigation and built modular components for easy maintenance.

Internships

Intern – DRDO, Solid State Physics Laboratory (SSPL), Delhi

June 2025 – July 2025

- Collaborated with DRDO scientists on a confidential personal research project, contributing to data handling and technical support.
- Assisted in organizing and managing sensitive internal databases related to DRDO personnel information, ensuring data accuracy and confidentiality.

Technical Skills

Languages and Frameworks: C/C++, Python, HTML5, CSS3 , JAVASCRIPT, ReactJS, Tailwind,

Tools and Technologies: MySQL, Photoshop, Microsoft Visual Studio, Canva, Excel,

Concepts: : Data Structures and algorithms, Object-Oriented Programming (OOPS), Database Management Systems (DBMS)
